

# HOT WEATHER WORK SHELTER

Velcro side straps allow workers to roll the side panels up to provide total ventilation or down to provide added shade and protection from the elements.

Sets up in seconds, with no loose parts.

Ventilation flaps in the roof allows hotter air to escape, while fresher cooler air enters through the lower portions of the tent.

Reflective strips provide high visibility at night.

<b>Model</b>	<b>Nominal Size</b>	<b>Weight</b>	<b>Folded Dimensions</b>
6506SRS	6' W x 6' L x 6' H	21 lbs	8" x 8" x 57"
